

Meeting Agenda

Date/Location: 23 February, 2024 at 4:30PM in NSU Library

Information Updates/Reminders

=====

- * The next 6-8 weeks, we are going to work on a project.
- * Everyone should be able to use git, GitHub wiki's, Trello, Discord.

Decisions Needed

=====

- Decision about the **programming language** that the team will use in the project.

General Items

=====

- Need a Trello board created for this project and team. Actions and other details will be posted there. Columns used need to be decided. Someone needs to create and invite other team members.
- Need to create a Discord server to track down the time and communication. Someone have to invite team members (using email addresses). We need to decide when to create channels (related to topics) in discord and need to do all communications there.
- Need a GitHub account for this project. One team member will create a repo in GitHub and invite the rest of the team members.
- Need GitHub wiki pages to document project details.
- Allocate one/two team members to check **coding standards**. They should come up with **at-least 2** coding standards.
- Allocate one/two team members to check **documentation tool(s)**. They should come up with **at-least 1/2 tools** (with brief summary of the usage, advantages and disadvantages) for source code level documentation.
